*Forest Bell
Clinic*

Total support for women including Obstetrics, Gynecology, Pediatrics, Fertility treatment and Postpartum care.

Safe and secure

24 hours a day, 365 days a year, highly skilled obstetricians, gynecologists, pediatricians, and midwives work together to provide patient-centered medical services.

Painless delivery

There is almost no effect on the baby, and by reducing the pain of labor, mothers can maintain their physical strength for a longer time, reducing the stress on the mother's body and mind.

All rooms are private and comfortable

Equipped with amenities, WIFI, showers and toilets, allowing mothers to fully relax.

Fully equipped, free daycare facilities

Our free daycare facilities can be used during hospital visits and after childbirth.

Laparoscopic surgery

(Castle Bell Clinic • Park Bell Clinic)

We provide laparoscopic surgery, which is less burdensome on the body, enables an earlier return to society, and is superior from an aesthetic point of view.

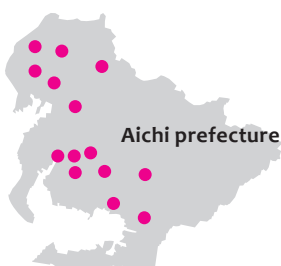

Gynecological examinations / fertility treatment

(Royal Bell Fertility Center)

Cervical cancer screening and breast cancer screening (4 Bell Network Clinics)
We provide advanced infertility treatments such as in vitro fertilization and micro-insemination (covered by health insurance).
